Chairman's Note

Daniel Ojijo Founder and Chairman / CEO Homes Universal Group

I am happy to welcome all of you at the 33rd edition of the Kenya Homes Expo. Throughout history, the Kenya Homes Expo event has made great strides in creating strategic partnerships, positioning the East Africa region as a premier investment destination. On this edition, I wish to echo on the opportunities, alliances, partnerships and every possibilities that you will uncover by meeting experts, exhibitors and visitors alike who have come together to celebrate real estate excellence.

The Expo continues to be an ideal real estate event powering engagements

#InspiredLiving

and highlighting on the journeys and achievements in the housing sector. A platform endorsed by the Ministry of Housing and Urban Planning, we have gathered stakeholders in the public and private sectors to create an ultimate experience for every individual and corporate who wants to participate in the expo. From cities and countries, we converge in a 4 day event to bring various stakeholders to the biggest homes show in East and Central Africa. We create a vibrant business environment to expand corporate deals.

To fully get the significance of this event, it is important to acknowledge our consistent partners like the Institution of Surveyors of Kenya (ISK), our event host, the Kenyatta International Convergence Centre (KICC), Kenya Property Developers Association (KPDA), Town and County Planners (TCPAK), Estate Registration Board of Kenya (EARB) Architecture Association of Kenya (AAK) and so many others whose engagement continue making real estate a firm venture option.

Our 33rd expo's theme "Inspired Living" recognizes the value of real estate as a critical sector in the economy. Investing in this area has spurred the growth of other industries, building on a solid avenue for economic prosperity. Notably, we have witnessed rapid expansion of financial

service providers, sustainable building materials, as well as an increase in the demand for affordable and sustainable living.

On this note, I wish to applaud the government efforts in addressing the housing needs of the lower or middle income households through Affordable Housing Program. As a developing nation, the government has championed making shelter accessible to most people through collaborations and innovations.

Our theme is indeed a tribute to the gains in the industry economic, social and political spheres.

Over the years, we have managed to harness the most pioneering exhibitors offering products and services that meet all the emerging needs in the real estate industry. On that note, I would like to express my sincere appreciation to all of you who have generously helped us make this event a success.

I wish you fruitful discussions that will help better understand the sector as we discover solutions to the most pressing housing issues.
